

5th March 2021

Dear valued customer,

The already tight supply situation for many of our key raw materials has worsened in recent weeks driven by strong demand and multiple major supply issues both within Europe and Globally.

For these reasons we are forced into a position where we must further increase our prices to cover the increased costs in our supply chain.

As of 1st April 2021 we will be increasing prices where contracts allow by 5 – 11% depending on product type.

This is in addition to the increase announced for 1st March 2021.

We thank you for your continued business and understanding during this challenging time.

Please contact your SNF Account manager if you have any questions regarding this matter.
