PRODUCT STEWARDSHIP

INTRODUCTION

SNF is committed to practicing responsible and sustainable business operations. As part of this commitment, we have developed a Product Stewardship Policy to ensure our products' safe and environmentally responsible management throughout their lifecycle.

Product Design and Development

- Integrate more sustainability principles into the product design and development process.
- Minimize the use of hazardous substances in our products and explore feasible alternatives.
- Consider the environmental impact of our products throughout their lifecycle, from raw material sourcing to disposal.
- Design chemical pathways and processes minimizing the generation of side products and waste and apply the principles of atom economy.

Product Safety and Compliance

- Comply with all applicable laws, regulations, and industry standards related to product safety.
- Regularly assess and monitor the safety and compliance of our products, making necessary improvements as required.
- Provide customers with clear and accurate product information, including safety instructions, warnings, and disposal guidelines.

Packaging and Waste Management

- Optimize packaging materials to minimize waste and promote recycling.
- Explore more sustainable packaging alternatives, such as recyclable or biodegradable materials and bulk flexitanks.
- Collaborate with suppliers and partners to implement effective waste management practices, including recycling and proper disposal.

Product Lifecycle Management

- Encourage product reuse, repair, and recycling wherever possible, extending the lifespan of our products, equipment, and installations.

- Establish and implement take-back programs or partner with appropriate entities to ensure our products are correctly disposed of and recycled.

- Provide guidance and support to customers on how to dispose of our products in an environmentally responsible manner.

Continuous Improvement

- Regularly review and assess our Product Stewardship Policy to identify areas for improvement.

- Engage with stakeholders, including customers, employees, suppliers, and regulatory agencies, to gather feedback and incorporate their perspectives into our product stewardship efforts.

- Strive for continuous improvement in product stewardship practices and setting goals and targets to drive positive change.

CONCLUSION

By adhering to this Product Stewardship Policy, SNF is committed to minimizing the environmental impact of our products and promoting the health and safety of our customers, employees, and the communities in which we operate. We encourage all employees to embrace and contribute to this policy in their respective roles, fostering a culture of responsible product stewardship throughout our organization.
