**RE: Price Increase**

Dear Valued Customer:

Due to the current geopolitical situation in the Middle East, the cost of certain raw materials and other goods are rising rapidly, and availability is becoming more uncertain. While the USA is less impacted than other regions, USA demand, feedstocks, and fuel prices are increasing.

As a result,

**SNF will apply an energy related price increase of 10%-20% for orders with a shipping date of April 1, 2026 or later.**

Price increases apply to all customers where contracts allow. So, please contact your SNF sales representative if you have any questions.

Thanks for your understanding, patience, and continued business.

John Pittman  
President
